

Up and Down Trail

COR20820

Item no. COR208201-0901	
General Product Information	
Dimensions LxWxH	754x214x220 cm
Age group	3+
Play capacity (users)	9
Colour options	

The Up and Down Trail is a great beginners' trim trail with immense appeal for toddlers and younger children. Many children can play at once on the UFO trail due to the intelligent, transparent design allowing children to interact socially through the piece. The wide variation of horizontal climbing supports allow for varying levels of ability and courage. They offer a

bouncy break, seated or hanging, too. The climbing wall can be used from both sides, supporting parallel play. The challenging Rocking Tube offers older players rich training of coordination and muscles. All the bouncy climbing immensely trains the balance, coordination and spatial awareness. These are fundamental motor skills used when e.g. sitting

still or navigating traffic in streets securely.

Up and Down Trail

COR20820

Corocord 16mm ropes are special 'Hercules'-type with galvanized four-stranded steel wires and a steel wire core. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear- and vandalism-resistant and can be replaced at site if needed.

Corocord 'S' clamps are used as universal connections in Corocord products. 8mm stainless steel rods with rounded edges are pressed around the ropes with a special hydraulic press, making them the ideal connector: safe, durable and vandalism-proof, all while allowing the typical movement of rope play structures.

Panel of 19mm EcoCore™ HDPE. This highly durable, eco-friendly material is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The steel structure are hot dip galvanized inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Corocord aluminium clamps are used as connectors between steel posts and rope. Two aluminium castings are bolted together. The height of the clamps is thus variable.

Item no. COR208201-0901	
Installation Information	
Max. fall height	200 cm
Safety surfacing area	37,4 m ²
Numbers of installers (persons)	2
Total installation time	11.8
Excavation volume	4,10 m ³
Concrete volume	2,87 m ³
Footing depth (standard)	100 cm
Shipment weight	338 kg
Anchoring options	In-ground ✓
Warranty Information	
Corocord rope	5 years
S-Clamps	10 years
Aluminium clamps	10 years
Galvanised steel	10 years
Spare parts guaranteed	10 years

Up and Down Trail

COR20820

Climbing wall

Physical: develops children's cross coordination, eye-hand coordination, and muscle strength when climbing.

Social-Emotional: two-sided climb invites cooperation.

Rocking tube

Physical: balance and coordination when climbing up or down. Muscle strength when holding tight.

Social-Emotional: cooperation and turn-taking.

Up and down trail

Physical: all muscles are used to hold tight when crossing the trail. Additionally, they stimulate balance, coordination and spatial awareness. These support the ability to navigate securely in space. Children also develop timing as they move their body across the space.

Social-Emotional: turn-taking and consideration of others when climbing through. These skills are hard to teach but easy to learn in play.

Up and Down Trail

COR20820

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
