

Freestanding Slide, 2.0m high

COR66910

Item no. COR669101-1101	
General Product Information	
Dimensions LxWxH	682x152x280 cm
Age group	5+
Play capacity (users)	7
Colour options	

The sturdy 2 meter freestanding slide will inspire children who are eager to play. The pleasing design adds beauty to the playground while also offering challenging climbing along with a thrilling slide down to the ground as a reward. Because the climb is a challenge, and the slide is fast and fun, children will want to play over and over again. This helps to

encourage more physical play on the playground, which strengthens skills such as agility and cross-coordination. Sliding on the slide encourages a sense of balance and posture, in addition to the thrill of taking a risk in a safe environment, which is important for psychological health, resilience and well-being. The high capacity of this slide also supports

social skills such as turn-taking and empathy, as children help each other to be successful in the climb and slide.

Freestanding Slide, 2.0m high

COR66910

Corocord ropes with 19mm diameter or more are special 'Hercules' - type with galvanised six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

Corocord 'S' clamps are used as universal connections in Corocord products. 8mm stainless steel rods with rounded edges are pressed around the ropes with a special hydraulic press, making them the ideal connector: safe, durable and vandalism-proof, all while allowing the typical movement of rope play structures.

The steel structure are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The stainless steel components are made of high quality stainless steel in compliance with global playground standards. The steel is glass blasted after manufacturing to ensure a smooth gliding surface.

Through KOMPAN Variant Team, you can choose between additional 7 rope colours and customize your solution. The assortment is a wide span of colours ranking from elegant and expressive black or natural and toned-down hemp colour, to a range of attractive and eye-catching signal colours.

Item no. COR669101-1101	
Installation Information	
Max. fall height	200 cm
Safety surfacing area	40,6 m ²
Numbers of installers (persons)	2
Total installation time	6.8
Excavation volume	4,85 m ³
Concrete volume	3,09 m ³
Footing depth (standard)	110 cm
Shipment weight	385 kg
Anchoring options	In-ground ✓
Warranty Information	
Corocord rope	5 years
S-Clamps	10 years
Galvanised steel	10 years
Spare parts guaranteed	10 years

Freestanding Slide, 2.0m high

COR66910

Waggle bridge

Physical: sense of balance and training of cross coordination. Important for other skills such as being able to sit still.

Social-Emotional: turn-taking and helping others when climbing up.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down.

Social-Emotional: empathy stimulated by turn-taking.

Freestanding Slide, 2.0m high

COR66910

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
