

MUGA, 11x21m, Low 1m/3m, Steel

FRE601101

KOMPAN
Let's play

Item no. FRE601101-0905

General Product Information

Dimensions LxWxH	2123x1144x369 cm
Age group	3+
Capacity (users)	-
Colour options	

The EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material. The core has a thickness of 15 mm and is representing 80% of the total material. The fully flat inside gives the best bounce experience when playing, this flat wall becomes a part of the game and means the

game can flow whilst adding another dimension that can challenge and develop players' tactical vision of the game. The 3 m x 2 m Multi Goal follows the goal size of FIFA Futsal and IHF Handball regulations. The basketball hoop is placed at the official NBA height of 305 cm, and has the official NBA size of 46 cm in diameter.

MUGA, 11x21m, Low 1m/3m, Steel

FRE601101

The HDPE panels are standard available in Night Sky Blue, Grey and Orange but multiple colours can be requested. To increase the design and playvalue you can also choose HDPE panels with patterns or logo's engraved.

All steel components are manufactured from carbon steel, welding's according EN ISO 5817 & Hot dip galvanised (HDG) according to ISO1461. This process ensures good protection in all circumstances.

The Panna Goals are 118 x 68cm and the distance between the vertical $\varnothing 21.3$ mm tubes is 68mm, small enough to keep all balls in play. The goal is framed with coloured HDPE strips to highlight the target.

Each panel has 4 Thermoplastic Vulcanizates plugs connecting the panels to the posts. The plugs reduce the vibration and therefore reduce the noise level. The plugs will also simplify installation as the come with pre-assembled nuts.

KOMPAN Multi Use Games Areas (MUGA) are designed as a flexible system. With the configurator you can easily change size, height, panels, entrances and goals to create a MUGA that fits your environment, budget and purpose.

The HDPE panels are connected with M8 stainless steel bolts to 42.5 x 40 x 3mm welded flanges. These connections are not visible from the inside and create a strong and safe connection.

Item no. FRE601101-0905

Installation Information

Max. fall height	0 cm
Safety surfacing area	0,0 m ²
Numbers of installers (persons)	2
Total installation time	48.9
Excavation volume	3,05 m ³
Concrete volume	2,27 m ³
Footing depth (standard)	85 cm
Shipment weight	2.874 kg
Anchoring options	In-ground <input checked="" type="checkbox"/> Surface <input checked="" type="checkbox"/>

Warranty Information

HDG post	Lifetime
EcoCore HDPE	Lifetime
Spare parts guaranteed	10 years
