

Item no. GXY902012-3717

General Product Information

Dimensions LxWxH	712x302x265 cm
Age group	6+
Play capacity (users)	15
Colour options	

Rocking and balancing activities can take place at both ends of Enif. At one end, the open triangle is a place for both wild and mild activity. At the opposite end, there is a rocking play shell that serves as a half-hidden place to cuddle into and disappear. It is a challenging journey to go through the Meteor Shower with its many ropes and multi-coloured orbs. There

is only a single plate to hold on to - but even that plate sways back and forth. The player has to choose the perfect route by measuring risk and challenge.

Data is subject to change without prior notice.

Enif

GXY902

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outside environments and requires low maintenance.

Larger activities are made of 100% recyclable PE. The play shell displayed is moulded in one piece with a minimum 5mm wall thickness. PE has high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

GALAXY climbing triangle with outer soft layer of PUR and corner brackets of moulded nylon (PA6). The core consist of a powder coated welded steel frame with integrated corner suspension points. Larger triangles are closed with an 18mm thick Ekogrip® panel that has a top-layer of rubber with a non-skid effect.

The curved climbing wall is made of a steel frame supported Ekogrip® panel with unique designed climbing cleats. The Ekogrip® panel consist of a 15mm thick PE base with 3 mm top-layer of rubber with a non-skid effect.

The unique designed GALAXY connection ball is made with an inner circular core of aluminium surrounded by a shell of hard PP with a outer layer of soft TPV rubber. Flexible lead free aluminium connectors allow for installation in variable angles.

Galaxy products are available in different colour combinations with either hot dip galvanised steel surface treatment or optional with powder top finish of selected steel components. Colours of the activities are adjusted to support the individual colour combination.

Item no. GXY902012-3717

Installation Information

Max. fall height	257 cm
Safety surfacing area	46,2 m ²
Numbers of installers (persons)	2
Total installation time	20.1
Excavation volume	4,29 m ³
Concrete volume	1,12 m ³
Footing depth (standard)	90 cm
Shipment weight	582 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

HDG structural parts	Lifetime
EcoCore HDPE	Lifetime
Hollow PE parts	5 years
Ropes & nets	5 years
Spare parts guaranteed	10 years

Meteor shower link

Physical: agility, balance and coordination when climbing and swaying on ropes. Arm, leg, and core muscles are strengthened. These are important for posture control and sitting still.

Social-Emotional: turn-taking and consideration of others when climbing through. These skills are hard to teach but easy to learn in play.

Teardrop handle

Physical: develop upper body muscles, when e.g. pulling yourself up or hanging in your arms.

Curved climbing wall

Physical: cross coordination is supported when children climb the ladder. The climbing also trains leg and arm muscles.

Open triangle plate

Physical: climbing, swaying when seated and balancing, for all abilities.

Social-Emotional: a great meeting point, swaying seat for a break, inviting socializing and turn-taking, accessible for all and usable for most.

Rope ladder

Physical: cross coordination is supported when children climb the ladder. The climbing also trains leg and arm muscles.

Social-Emotional: place for meeting, taking a break and socializing.

Play shell

Physical: the swaying movement stimulates the sense of balance, necessary to sit still on a chair.
Social-Emotional: taking a break and turn-taking are supported, skills necessary to learn how to avoid conflicts.

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
