

# Steel Swing H:2.5m, 100cm Shell Seat

KSW92009

Item no. KSW92009-0910

## General Product Information

Dimensions LxWxH	669x184x255 cm
Age group	4+
Play capacity (users)	8
Colour options	

WOW! The combination of the bird's nest swing and two single seats swing is a hit: children love it, as it can be done individually and together. It facilitates laying, seated, standing swinging, alone or together. It is a great facilitator of fun rough-and-tumble play. The seats cater for multiple users of all abilities and most ages, day after day, for hours and hours.

Swinging, apart from being tremendous fun, trains the children's ABC: agility, balance and coordination, as well as their spatial awareness. These motor skills are crucial to being able to judge distance and navigate traffic safely. The standing sitting, lying and standing swing activities train the arm, leg and core muscles. The jumping off builds bone density – the

majority of which is built up during the first years of life. Finally, this swing supports social skills such as turn-taking, cooperation.

KSW92009

Vertical posts of hot dip galvanised steel or powder coated on pre-galvanised steel base. Swing frame end connectors and crossbeam of hot dip galvanised steel or powder coated on hot dip galvanised steel base.

KOMPAN heavy duty designed swing hangers of stainless steel with anti-twist function. The hangers are attached to the cross beam on a welded bracket with two bolts, The bearings are embedded with silicone lubricant and needs no further lubrication.

KOMPAN designed the bird's nest seats to be light in weight and in compliance with global safety standards. The soft, shock absorbent bumpers with non-slip surface makes the swing seat extremely user friendly. Choose between a rope version with reinforced PA rope or a moulded PE version. Both equipped with soft rubber bumpers.

The standard seats of KOMPAN swings is engineered for maximum safety and durability. The seat two component seat with a PP inner core and outside rubber is produced in one operation. The seats are available with swing chains of either hot dip galvanised steel or stainless steel for all swings heights.

The swing hangers are made of high quality UV-stabilised nylon (PA6) housing with integrated lifetime sealed ball bearings. The height adjustable chains are fixed by a stainless steel hook with theft proof snake-eye bolt in a turn able anti twist housing. All seats with two chain fixation are available with either standard or anti-wrap suspension.

Unique designed seats for toddlers: Baby seat of rubber. Toddler seat of PUR with four chain suspension for easy movement. Cradle seat. You & Me swing seat for adult/child or children of different ages to swing together while facing each other.

Item no. KSW92009-0910

### Installation Information

Max. fall height	143 cm
Safety surfacing area	41,0 m <sup>2</sup>
Numbers of installers (persons)	2
Total installation time	7.0
Excavation volume	1,58 m <sup>3</sup>
Concrete volume	0,58 m <sup>3</sup>
Footing depth (standard)	90 cm
Shipment weight	291 kg
Anchoring options	In-ground ✓

### Warranty Information

Steel post HDG	Lifetime
Swing seat	10 years
Swing hangers	5 years
Chains	10 years
Spare parts guaranteed	10 years

# Steel Swing H:2.5m, 100cm Shell Seat

KSW92009

## Shell nest swing

**Physical:** balance, coordination and spatial awareness are developed when swinging. The swinging movement trains the arm, leg and core muscles, and strengthens bone density when jumping off.

**Social-Emotional:** the spacious seat allows for many children standing, lying, seated together and is inclusive for all.

**Cognitive:** cause and effect understanding, rhythm and thinking skills are developed in younger children.

## Two single swings

**Physical:** balance, coordination and spatial awareness are developed when swinging. All necessary when judging distances and navigating. The swinging movement trains the arm, leg and core muscles, and strengthens the bone density when jumping off.

**Social-Emotional:** parallel play invites cooperation and consideration.

**Cognitive:** cause and effect understanding, managing rhythm and thinking skills for younger children when swinging. Rules games for bigger children, when swinging in same or different rhythm.

KSW92009

## PHYSICAL

Joy of movement:  
motor skills, muscle, cardio  
and bone density

## SOCIAL-EMOTIONAL

Joy of being together:  
teamwork, tolerance and  
sense of belonging

## COGNITIVE

Joy of learning:  
curiosity, understanding of causal  
relationships and knowledge of the world

## CREATIVE

Joy of creating:  
co-creation and experimenting  
with materials

### BALANCE

To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

### HANG IN ARMS

To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

### SENSORY

To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

### BOUNCE

To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

### JUMP

To jump is the act of jumping up or down on a hard surface.

### SLIDE

To slide is the act of moving fast downwards seated on a slide.

### CLIMB

To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

### PULL

To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

### SOCIALIZE

To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

### CONSTRUCT

To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

### PUSH

To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

### SPIN

To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

### CRAWL

To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

### ROCK

To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

### SWAY

To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

### DRAMATIC PLAY

Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

### ROTATE

To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

### SWING

To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

### GLIDE

To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

### RULES PLAY

Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

### WONDER

To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
