

Rotating Table

M571

Item no. M57170-3317P

General Product Information

| | |
|-----------------------|-------------|
| Dimensions LxWxH | 60x60x64 cm |
| Age group | 2+ |
| Play capacity (users) | 2 |
| Colour options | |

The Rotating Table is a wonderful sand play experience for children: the lower table can be turned, so that sand or other materials can be shifted through the holes or down on a platform. The upper table has a sand bowl for mixing materials. There is a sieve to filter materials through and a funnel to shift materials from the upper to the lower table. The lower table can be

turned to transport materials around to friends on the opposite side of the table. All these play options stimulate an understanding of cause and effect in the child, that feeds into logical thinking skills: if the lower table is turned, materials can be collected or discharged from the higher table. A wealth of manufacturing possibilities in the Rotating Table, producing or

transporting, motivate cooperation and dramatic play, and thus communication skills.

Rotating Table

M571

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Play activities like the Megaphone are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength and is UV stabilised.

Sand strainer is made of high-quality stainless steel to ensure durability of the product.

Item no. M57170-3317P

Installation Information

| | |
|---------------------------------|--------------------------|
| Max. fall height | 0 cm |
| Safety surfacing area | 10,2 m ² |
| Numbers of installers (persons) | 2 |
| Total installation time | 0.5 |
| Excavation volume | 0,19 m ³ |
| Concrete volume | 0,00 m ³ |
| Footing depth (standard) | 50 cm |
| Shipment weight | 33 kg |
| Anchoring options | In-ground ✓ Surface ✓ |

Warranty Information

| | |
|------------------------|----------|
| EcoCore HDPE | Lifetime |
| Galvanised steel | 10 years |
| Spare parts guaranteed | 10 years |

Rotating Table

M571

Rotating table

Cognitive: the rotating elements stimulate cause and effect understanding and logical thinking.

Desk with bowl sieve

Social-Emotional: children can gather and store materials, cooperate and take a break together.

Cognitive: sand can be shifted through the sieve, for understanding of cause and effect and object permanence.

Rotating Table

M571

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
