

Toddlers Town

MSC5427

Item no. MSC542700-3418P

General Product Information

Dimensions LxWxH	244x61x140 cm
Age group	1+
Play capacity (users)	2
Colour options	

The Toddler's Town is a favorite play-ground activity that attracts children to being active and interactive in a thrilling way. The Toddler's Town offers a den under the slide platform, inviting meetings and socializing, the beginning of the first friendships. The stairway is wide and can be accessed crawling, too. This trains children's cross-coordination, an important

motor skill that among others support later reading skills. Sliding is a great thrill for the youngest. It additionally trains their core muscles, sitting upright while sliding down. Sliding trains the sense of balance and the spatial understanding, too. These skills are important in navigating the world securely. They are the fundament of all motor skills and thus a

fundament in physical confidence in the child. The house theme is familiar and inspires stories, developing language.

Data is subject to change without prior notice.

Toddlers Town

MSC5427

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

All floors are made of High-Pressure Laminate HPL with a thickness 17.8mm and non skid surface texture according to EN 438-6. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The slide bed can be chosen in different materials: Straight moulded PE or stainless steel slide bed t=2mm. Sides of the slides are made of EcoCore?.

Item no. MSC542700-3418P	
Installation Information	
Max. fall height	100 cm
Safety surfacing area	14,5 m ²
Numbers of installers (persons)	2
Total installation time	7.4
Excavation volume	0,17 m ³
Concrete volume	0,00 m ³
Footing depth (standard)	60 cm
Shipment weight	154 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
HPL decks	10 years
Galvanised steel	10 years
Spare parts guaranteed	10 years

Toddlers Town

MSC5427

Stairway

Physical: climbing the stairs is for all and supports cross-coordination as well as arm and leg muscles.
Social-Emotional: room for active breaks and adult helpers.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down.
Social-Emotional: empathy stimulated by turn-taking.
Cognitive: young children develop their understanding of space, speed and distances when sliding down quickly.

Mouse

Cognitive: the mouse set a tangible theme and thus spur dramatic play. Dramatic play is a great trainer of language skills.

Climb-through hole

Physical: the hole allows for climbing and crawling through, developing cross-coordination, proprioception and spatial awareness.
Social-Emotional: cooperation and turn-taking when passing one another.

Den

Physical: crawling through the possible openings trains spatial awareness.
Social-Emotional: the enclosed space invites social play for two or three children.

House

Cognitive: suggests a theme and supports dramatic play, which stimulates languages and communication skills.

Toddlers Town

MSC5427

PHYSICAL

Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL

Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE

Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE

Joy of creating:
co-creation and experimenting
with materials

BALANCE

To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS

To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY

To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE

To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP

To jump is the act of jumping up or down on a hard surface.

SLIDE

To slide is the act of moving fast downwards seated on a slide.

CLIMB

To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL

To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE

To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT

To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH

To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN

To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL

To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK

To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY

To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY

Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE

To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING

To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE

To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY

Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER

To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
