Capacity (users)	4
Colour options	

RUMBA comes with the endless of possibilities to realize seating in customized design for all outdoor environments. RUMBA is the most flexible way of marrying seating solutions to the environment, in perfect harmony - geometry meets geography. Built around simple circles and curves, they can be adapted to provide custom-built twists and turns. The standard

available benches and tables can be dressed up with back supports, armrests, tables etc. and linked together into tailored solutions for the individual location.

Rumba Table 100cm

PAR1007

Seat and backrest produced in Siberian Larch wood. Natural impregnation without chemical additives makes the Siberian Larch wood very durable in a natural way. Siberian Larch ages with patina and develops into a beautiful silver grey color over time. The wood boards have a thickness of 40mm.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The standard available benches and tables can be dressed up with back support, armrests, tables etc. and linked together into tailored solutions for the individual location.

Item no. PAR1007-0301

Installation Information

Numbers of installers (persons)	2
Total installation time	1.1
Excavation volume	0,10 m ³
Concrete volume	0,10 m ³
Footing depth (standard)	25 cm
Shipment weight	69 kg
