A great place to chill! The Meeting Point adds an important option to the playground. The design appeals to older children and is based on research insights: when creating a meeting point, for instance for teenagers, it is important to make it relatively transparent, while keeping a feeling of a safe haven too. This is why the Meeting Point with Bench features openings in

its back support and sides: To make sure that people seated can see what or who is approaching. The open design also supports the many body positions that teenagers take when Chilling: lying, kneeling, standing, or just sitting. The ability of having a view of the entire playground while meeting with friends or watching your children play. The Meeting Point

has so much more to it than meets the eye.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The steps are made of High Pressure Laminate HPL with a thickness 17,8mm and non skid surface texture according to EN 438-6. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Steel posts are galvanised inside and outside with powder coated top finish. This provides an ultimate corrosion resistance in all climates around the world.
